

# Hawaiian Tax-Free Trust

## Class Y | HULYX

Annual Shareholder Report — March 31, 2026

This annual shareholder report contains important information about the Hawaiian Tax-Free Trust (the “Trust”) for the period of April 1, 2025 to March 31, 2026. You can find additional information about the Trust at <https://www.hawaiiantaxfreetrust.com>. You can also request this information by contacting us at 800-437-1000.

### What were the Trust costs for the last year?

(Based on a hypothetical \$10,000 investment)

Trust (Class)	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Hawaiian Tax-Free Trust (Class Y / HULYX)	\$72	0.71%

### Management’s Discussion of Trust Performance

Over the one-year period ended March 31, 2026, the Hawaiian Tax-Free Trust’s Class Y shares returned 4.13%. This performance lagged the 4.29% return of the Trust’s primary benchmark, the Bloomberg Municipal Bond Index. Additionally, the Bloomberg Hawaii Municipal Bond Index, the Trust’s secondary benchmark, returned 4.81% during the same period. The market has remained volatile within a trading range of approximately 50 bps. Several key events have triggered the rates outlook for the market.

In the first quarter of 2026, volatility arising from the Iranian conflict shocked the markets. Markets were concerned about a dramatic spike in oil prices following the closure of the Strait of Hormuz and Iran’s targeting of Middle East oil infrastructure. During this period, the Federal Reserve paused further interest-rate cuts but indicated the possibility of one additional cut before year-end, depending on incoming data. Prior to the conflict, the market had priced in nearly three additional Fed Funds rate cuts in 2026. The market outlook reversed as oil prices rose and expectations shifted to a “no cut” stance for the year. In remarks during the quarter, Federal Reserve Chair Jerome Powell refocused attention from oil-price volatility to the potential impact on U.S. economic activity. Despite easing concerns about embedded inflationary pressures, overall interest rates increased during the first quarter of this year.

During the one-year period ended March 31, 2026:

- The Trust’s underperformance relative to its primary benchmark was attributable to the longer maturity bias of securities held by the Trust.
- The Trust’s longer maturity relative to the primary benchmark provided a negative headwind. However, we believe the more attractive yields in the long end of the curve may represent a substantial potential long-term benefit for shareholders.

## Trust Performance

The following is a comparison of the change in value of a \$10,000 investment in Hawaiian Tax-Free Trust's Class Y vs. the Bloomberg Municipal Bond Index and the Bloomberg Hawaii Municipal Bond Index.

### GROWTH OF \$10,000

For the years March 31, 2016 through March 31, 2026

Average Annual Total Returns	1 Year	5 Years	10 Years
Class Y	4.13%	0.47%	1.20%
Bloomberg Municipal Bond Index	4.29%	0.84%	2.16%
Bloomberg Hawaii Municipal Bond Index	4.81%	0.80%	1.98%

**All returns represent past performance which is no guarantee of future results.** Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The above table and graph do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of shares.

## Key Trust Statistics

The following table outlines key Trust statistics that you should pay attention to.

Trust net assets	\$366,070,670
Total number of portfolio holdings	94
Total advisory fee paid	\$878,183
Portfolio turnover rate as of the end of the reporting period	30%

## Portfolio Holdings Summary Table (as of March 31, 2026)

The following table presents a summary by credit quality of the portfolio holdings of the Trust, as a percentage of net assets:

CREDIT QUALITY	
AAA	4.4%
AA+	34.9%
AA	28.6%
AA-	24.9%
A+	4.8%
BBB+	0.7%
Cash	1.7%

Credit quality ratings are primarily sourced from Moody's but in the event that Moody's has not assigned a rating, the Trust will use S&P or Fitch. If these ratings are in conflict, S&P will be used before Fitch. If none of the major rating agencies have assigned a rating, the Trust will assign a rating of NR (non-rated security). The ratings represent their (Moody's, S&P, and Fitch) opinions as to the quality of the underlying securities in the Trust, and not the Trust itself. The ratings range from AAA (extremely strong capacity to meet financial commitment) to D (in default). Ratings are relative and subjective and are not absolute standards of quality. A pre-refunded bond (if any) is secured by an escrow fund of U.S. government obligations (i.e. Treasury securities) and assumes the superior credit rating of the government obligation. The ratings do not predict performance and are subject to change.

### Material Trust changes during the period

During the fiscal year ended March 31, 2026, there were no material changes to the Trust.

### Changes in and Disagreements with Accountants

During the fiscal year ended March 31, 2026, there were no changes in and/or disagreements with Accountants.

### Availability of Additional Information

You can find additional information about the Trust, including the Trust's prospectus, financial information, holdings and proxy voting information, at <https://www.hawaiiantaxfreetrust.com>.

### Householding

To reduce Trust expenses, only one copy of most shareholder documents may be mailed to shareholders with multiple accounts at the same residential address. Unless we are notified otherwise, we may continue to send only one copy of these materials for as long as they remain a shareholder of the Trust. If you would like to receive individual mailings, please contact the Trust at 800-437-1000, or contact your financial intermediary. Your instructions will typically be effective within 30 days of receipt by the Trust or your financial intermediary.
